Top-3 Breed Predictions:

Rank	Breed	Confidence	Risk Tier	Notes
1	French Bulldog	89%	Tier 4 — Restricted	Brachycephalic — Tier 4 Restricted. BOAS, spinal risk.
2	Boston Terrier	7%	Tier 3 — High	Similar skull structure; tuxedo markings absent
3	English Bulldog	4%	Tier 4 — Restricted	Larger body mass expected; ruled out

Visual Characteristics Identified:

BRACHYCEPHALIC facial structure — severely shortened muzzle, wide nares
Compact, muscular body with characteristic 'pear-shaped' torso
Large, erect bat ears — defining French Bulldog trait
Skin fold at nose (nasal rope) — hallmark of the breed
Short, smooth coat — fawn colouration with white chest patch
Screw tail visible — French Bulldog characteristic

OUTCOME

Breed mismatch detected. Pet declared as 'Bulldog Mix' (Tier 1) but visual evidence identifies a French Bulldog (Tier 4 — Restricted) with 89% confidence. Tier delta of +3 represents significant under-declared risk. Policy must be repriced at Tier 4 premium before enrolment proceeds. Member to be notified of revised premium. Underwriter manual review required for Tier 4 restricted breed approval.
