OUTCOME

FRAUD_FLAG issued under rule FD-03. Image embedding cosine similarity of 0.97 exceeds the 0.94 duplicate-detection threshold. The same pet appears enrolled under two separate member accounts (MEM-00412 and MEM-03341) with different owner names. Both policies and the associated claim have been suspended. Case routed to fraud investigation team for identity verification and policy audit. No reimbursement to be processed until investigation is complete.
